Jake Small

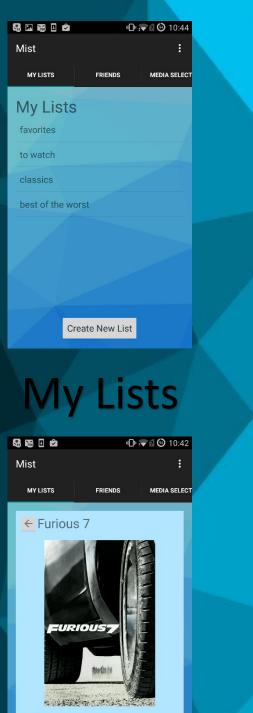

Senior in Informatics

I will be graduating this year with a major in Informatics and minors in **Computer Science** and Security. For capstone I interned at a software development company in **Bloomington called Bloom Insurance** Agency. I accepted a position at Textron Systems in Maryland and I will start there in June.

About

Notes

Mist

Overview

Continuing the global exploits in the unstoppable franchise built on speed, Vin Diesel, Paul Walker and Dwayne Johnson lead

Mist

MIST is a mobile app designed to make finding movies easy so less time is spent searching and more time is spent watching. With MIST a user can create lists of their favorite shows and lists of shows they want to watch. MIST incorporates a social media aspect where a user can add friends and view their lists. In order to find a show to watch the app includes a "select random movie feature" with optional filters like genre, rating, release date, etc. Films can be searched and the app will provide basic info on the selection with a link to its IMDb page.
